Discovering Landscapes Heritage 'Coast to Coast'

Tennyson Heritage Coast - Compton Bay

Sunday 13th April 2025 2025 – 4pm to 6pm

Meeting Point: Compton Beech Car Park, Military Road, PO30 4HB

What3Words = loitering.estimated.error

Free Parking

Join Kathy, our Nature Connector, to explore and discover all about the cliff coastline where you will be learning about the different bird and butterfly species and some of the plants found on the coast. Down on Compton Beach you will explore the rock pools, sea life and seaweeds.

You will have the opportunity to learn how to make some charcoal on an open beach fire, which you will then take to use in the creative session with Gina, Creative Connector, and learn how to make mixed media pictures. You may also have time to create a collage using items found, for instance shells. Using a selection of oils, pastels, crayons and coloured pencils you will be able to create sketches of the land and seascapes and items discovered at Compton Bay.

Exploring Compton Bay during a spring low tide will be very interactive, creative and hands-on, enabling you to experience a really fun and exciting learning opportunity. You will be able to switch off, get up close and connect with nature and each other. A perfect way to enhance your emotional wellbeing and mental health whilst enjoying the fantastic coastline views!

Please bring a beach towel to dry your feet after rock pooling.
